Free Websites for Everyone • www.portfoliovillage.com

It's FREE for k-12 Schools, Colleges, and Career Centers

We will build a branded PortfolioVillage Website Portal linked to your college career center, library, or school district absolutely FREE. Students can create Web presentations, club sites, class sites, and group sites. Our Web Portfolio and Website solution enables institutions to provide their entire community resources to create Flash based public Websites and Web Portfolios. Students, faculty, and alumni can create online e-portfolios showcasing their biography, videos, project samples, photos, work from their academic or professional career, and a copy of their resume (we provide an online resume Builder too!). Alums can create professional Websites for business and career purposes.

Easy set-up...Just Add a Link to Your Website

No IT integration needed. No server space needed. Provide your institution's colors and logo, and we create the branded Web Portal. Simply add a link to your institution's Website, Users go through a link at your Website to enter the Portal and create their Website. Users can create multiple sites using a Mac or Windows computer with an Internet connection. No limit on users—ever.

Set up a Free Website Portal for Your School, College, or Career Center
